

HOKUAPPS RESOURCE

DEPLOYING YOUR ANDROID APP

HOKUAPPS

To deploy your Android application, you will need to complete the following steps.

Before You Begin

Creating a Google Play Developer account requires that you have a traditional Google account available. Make sure you have created a Google account for your organization, instead of using a personal one.

(<https://accounts.google.com/SignUp>).

1. Visit the Google Play Developer Console

<https://play.google.com/apps/publish/signup/>

- **Log in** to the Google Account that will act as the Account Owner for your Developer Account.
OR
- Or click on 'More Options' and Sign up for a Google account.

Note: During registration, you must accept Google Play Developer Distribution Agreement to continue. If your account has previously been in violation of this agreement, you cannot register as a Google Play Developer.

2. Read and agree to the Google Play Developer distribution agreement.

3. **Click the Continue** to payment button.

Sign-in with your Google account

Accept Developer Agreement

Pay Registration Fee

Complete your Account details

You are signed in as...

anuja.hokuapps@gmail.com

This is the Google account that will be associated with your Developer Console. If you would like to use a different account, you can choose from the following options below. If you are an organization, consider registering a new Google account rather than using a personal account.

[SIGN IN WITH A DIFFERENT ACCOUNT](#) [CREATE A NEW GOOGLE ACCOUNT](#)

Before you continue...

Accept developer agreement

Read and agree to the Google Play Developer distribution agreement.

I agree and I am willing to associate my account registration with the Google Play Developer distribution agreement.

Review distribution countries

Review the distribution countries where you can distribute and sell applications. [Learn more](#)

If you are planning to sell apps or in-app products, check if you can have a merchant account in your country. [Learn more](#)

Credit card

Make sure you have your credit card handy to pay the \$25 registration fee in the next step.

4. Pay the registration fee for your account and continue registration.

anuja.hokuapps@gmail.com

This is the Google account that will be associated with your Developer Console.

If you would like to use a different account, you can choose from the following options below. If you are an organization, consider registering a new Google account rather than using a personal account.

Complete your purchase

Google Play Developer Registration Fee \$25.00

Add credit or debit card

Card number

MM / YY

CVC

Cardholder name

Anuja Patil

Billing address

By continuing, you create a Google Payments account and agree to [Terms of Service - Buyer \(India\)](#) and [Privacy Notice](#).

[PAY](#)

[CONTINUE TO PAYMENT](#)

Before you continue...

Accept developer agreement

Read and agree to the Google Play Developer distribution agreement.

I agree and I am willing to associate my account registration with the Google Play Developer distribution agreement.

5. Fill out your Google Play Developer Profile and click 'Complete Registration'.

Note: It may take up to 48 hours for your Google Play Developer Console registration to be fully processed.

The screenshot shows a web form titled "You are almost done..." with a sub-header "Developer Profile". A note states: "Just complete the following details. You can change this information later in your account settings if you need to." The form includes several input fields: "Developer name *" (with a 0/50 character limit and a note: "The developer name will appear to users under the name of your application."), "Email address *", "Website", and "Phone Number *" (with a note: "Include plus sign, country code and area code. For example, +1-800-555-0199." and a link: "Why do we ask for your phone number?"). Below the form is an "Email preferences" section with a checkbox.

6. Enable access for team members

As the Account Owner, enable access and roles for project contributors in the Google Play Developer Console. The users you invite do not need to pay a Developer Registration Fee to use the Developer Console.

7. Last Steps

Publishing the App

To publish the app on the Google Play Store, HokuApps will need your login details and additional information such as app name (final), a short description, a full description, and privacy policy (if you don't have one, we can skip this section). HokuApps will take care of the other data like icons, and app preview screenshots.
